## Body Socks

**Body socks, Lycra Tunnels** and **Bed Socks** are a great source of regulation and body awareness. They are portable and easy to keep clean.

Our Body Socks Bed socks can assist with **sleep issues** relating to **sensory needs** and **separation anxiety**. Each sock provides **unrestricted movement** and an opening on both ends so that the user can move freely under the **breathable Lycra fabric**. The Bed Sock can help settle the user by giving a sense of **deep pressure like a gentle hug**.

**Body Socks** is an **Australian** manufacturer of sensory products that are ideal for children and adults with autism, anxiety or sensory processing disorders who crave sensory input, particularly **proprioceptive** and **vestibular** input.

Therapeutic uses for Body Socks includes **Self-Regulation** and **Body Awareness**. Body Socks are a fun way for children to work on a variety of skills while in occupational therapy. It is an enjoyable and entertaining tool for them to use, and they won't even know they are working! Perfect for floor time.

\*When in use we recommend you monitor the user.
